Office of Legislative Counsel

Monday - 8 February 1960

2. Ben Mandel of the Internal Security Subcommittee Staff called and asked if we would give him summary reports on the following three anti-communist meetings which are scheduled between now and summer:

3. Mr. Carden, in the office of Congressman Edgar W. Hiestand (R., Calif.), called to say that the Congressman was planning to introduce a resolution in the House stating the fraudulent nature of the Soviet claims in satellite and missile progress. He planned to cite the articles by Evans in the National Review and Lloyd Mallon on the BIG RED LIE in supporting this position. Mr. Carden was desirous of any information we might provide on this subject. His attention and that of the Congressman was called to the House Science and Astronautics hearings on the BIG RED LIE. Congressman Hiestand seemed most appreciative of this information.
